

Ph.D Entrance Syllabus-2021 (Research Methodology)

Syllabus for Research Methodology (50% weightage)

Introduction: Objectives of research, motivation in research, types of research, interdisciplinary research, scientific methods of research, criteria of effective research, and characteristics of an effective researcher.

Defining Research Problem: Art of literature review, use of ICT in effective literature review, formulation of problem, formulation of hypothesis, developing research plan, meaning of research design, types of research design, basic principles of experimental design, selection of relevant variables, validity of experiments.

Data Collection and Utilization: Types of data, methods & techniques of data collection, sampling, characteristic of a good sample design, methods used in sampling, sampling errors, tests of hypothesis.

Quantitative Methods: Data presentation, satisfied analysis and interpretation of data, types of analysis, simple regression correlation, coefficient of determination, (r^2), z-test, t-test, ANOVA, Chi-square test, multi-variate analysis of data, multiple regression.

Computer Application: Role of Computer in research, data organization, software selection and its applications, solving problems by using scientific software and tools, sample programmes for analysis of data.

Thesis Writing and Presentation: Significance of writing thesis, different types of research writing, conference paper, journal paper, patents, thesis etc., different steps in writing thesis, layout of thesis, guidelines for writing good thesis, precautions in writing thesis, presentation skills, defending the thesis.
